Ground Level Ballroom, Bard Hall, Columbia University Medical Center
50 Haven Avenue
New York, NY 10032
(212) 304-7000

Hosted by: Columbia University

Lifting Up Patient Voice & Quality of Life: A Scientific Symposium Highlighting 25 Years of Gateway's Achievements in Driving Transformational Cancer Treatment

In the spirit of Gateway's new impact framework, symposium proceedings are designed to present, reflect on, and look ahead to Gateway's investment in patient-centric cancer research. Presentations will showcase clinical trials of a subset of past and presently funded Gateway researchers, illustrating the three key strategies that drive Gateway's impact – (1) Patients Have a Voice; (2) Cancer Patients Feel Better and Live Longer; and (3) Patients Contribute to Overcoming Cancer in the Future. The symposium will also feature insights on advancing development and use of patient-reported outcomes, the promise of collaboration at the intersection of systems biology and the "Big Data" space, and the value of a forward-thinking philanthropy like Gateway.

8:30-9:20am	Breakfast Reception
9:20-9:35am	Welcome Teresa Hall Bartels, President Gateway for Cancer Research
9:35-10:35am	Keynote Address Dr. Siddhartha Mukherjee Columbia University
10:35-10:50am	Break
10:50am-12:05pm	Patients Have a Voice – Perspectives in Precision Medicine Moderator: Dr. Sung Won Choi, University of Michigan Health System <u>Presentations:</u> Dr. Janet K. Horton, Duke University Medical Center Dr. Christopher R. Cogle, University of Florida Dr. Raquel Reinbolt, The Ohio State University Linda Lampers, Inspiring Cancer Conqueror
12:05-12:15pm	Break

12:15-1:15pm

Cancer Patients Feel Better and Live Longer

Moderator: Dr. Nelson Jen An Chao, Duke University

Presentations:

Patient Voice Expert

Dr. Weili Sun, City of Hope National Medical Center

1:15-2:15pm

Lunch

2:15-3:25pm

Patients Contribute to Overcoming Cancer in the Future

Moderator: Dr. Gary E. Deng, Memorial Sloan Kettering

Presentation:

Dr. Sebastiano Gattoni-Celli, Medical University of South Carolina

Dr. Adam C. Resnick, The Children's Hospital of Philadelphia

3:25-3:40pm

Cancer Researcher of the Year Presentation

3:40-4:00pm

Closing Remarks
